Brain Quest

Dear Parent,

"It's Fun to Be Smart!" That's not just our slogan, it's our philosophy. For fifteen years we've been adding a big dose of "fun" into learning—first with our bestselling Q&A Brain Quest card decks; then with all the licensed games and products bearing the Brain Quest brand; and now with BRAIN QUEST WORKBOOKS.

At Brain Quest we believe:

- All kids are smart—though they learn at their own speed.
- All kids learn best when they're having fun.
- All kids deserve the chance to reach their potential—given the tools they need, there's no limit to how far they can go!

BRAIN QUEST WORKBOOKS are the perfect tools to help children get a leg up in all areas of curriculum; they can hone their reading skills or dig in with math drills, review the basics or get a preview of lessons to come. These are not textbooks, but rather true workbooks—best used as supplements to what kids are learning in school, reinforcing curricular concepts while encouraging creative problem solving and higher-level thinking. You and your child can tackle a page or two a day—or an entire chapter over the course of a long holiday break. Your child will be getting great help with basic schoolwork, and you will be better able to gauge how well he or she is understanding course material.

Each BRAIN QUEST WORKBOOK has been written in consultation with an award-winning teacher specializing in that grade, and is compliant with most school curricula across the country. We cover the core competencies of reading, writing, and math in depth—with chapters on science, social studies, and other popular units rounding out the curriculum. Easy-to-navigate pages with color-coded tabs help identify chapters, while Brain Boxes offer parent-friendly explanations of key concepts and study units. That means parents can use the workbooks in conjunction with what their children are learning in school, or to explain material in ways that are consistent with current teaching strategies. In either case, the workbooks create an important bridge to the classroom, an effective tool for parents, homeschoolers, tutors, and teachers alike.

BRAIN QUEST WORKBOOKS all come with a variety of fun extras: a pull-out poster; Brain Quest "mini-cards" based on the bestselling Brain Quest game; two pages of stickers; and a Brainiac Award Certificate to celebrate successful completion of the workbook.

Learning is an adventure—a quest for knowledge. At Brain Quest we strive to guide children on that quest, to keep them motivated and curious, and to give them the confidence they need to do well in school . . . and beyond. We're confident that BRAIN QUEST WORKBOOKS will play an integral role in your child's adventure. So let the learning—and the fun—begin!
