## JOIN US FOR YOUR HOLIDAYS!

The most wonderful thing about holidays is that they are meant for you to do exactly what you like. To take your imagination to new heights and have another fun every day, we will come up with new things all the time, and we will not run out of ideas that fast.

In the Bareiss Children's World, fairy tales, dreams, and wishes come true day by day. Whether you want to be an artist or a sorcerer's apprentice, a circus or a ball acrobat, a treasure hunter or an explorer, you can play every role and become whoever you want. Frisk ponies, cheeky goats and fluffy rabbits are waiting for you at the Bareiss Petting Zoo or at the Horse Farm »Bareiss Reiterhöfle«. Come to our fallow deer enclosure and join us to watch the fallow deer herd, take out your explorer's degree with our fish farmers, and have your greatest adventure in the wilderness of the Black Forest National Park. Too bad that, even at our place, such a day has 24 hours only. But we are giving our very best on every single of these days!

What did you always want to try out? How would your best-ever holidays look like? When you dream of travelling, where would be your most favourite place? Make yourself comfortable, join us on a journey, and send your ideas off to your next holidays already now!

Our Bareiss is waiting for you, and we are all looking forward to having a great time together with you,

Sincerely yours,

*Britta Baum*

The people in charge here are all professionals in their fields, and know exactly what it means to fully devote oneself to a matter. Or arouse enthusiasm for this in others. So: join in and make this your summer!

## THE BAREISS ANIMAL WORLD

Three cheeky ponies, playful dwarf goats and a growing family of bunnies, that is the colourful gang of little rascals who are at home at our Bareiss Petting Zoo. They are all very tame and curious but they do also have a mind of their own. And that is a good thing as it tells you very quickly whether they are feeling well or whether they are not happy with something.

You know that you should always be careful when dealing with animals and approach them gently so as to avoid scaring them. It is no secret either that they like to nibble at everything which appears in front of their noses. And they know no limits of their own when eating. Feeding them in-between is not a very good idea. So we will do this together.

Bea, Bibiana and Bless, the classic ponies, seem to be the spitting images of each other at first glance. But when you are here, we will reveal you the secret of how you can tell them apart.

Our bunnies are all little »rascals« and know how to rope others in. When they come closer to you, this shows that they are curious. The best idea is to first allow them to sniff the palm of your hand.

Our West African Dwarf Goats are the smallest breed of goats in the world. Plants grow rather sparsely and the climate is dry in their home countries. In the wilderness, they have to cope with this on their own and that's why they are such undemanding and compact animals.

### SEEING THE FALLOW DEER FAMILY

In our game enclosure, you can watch fallow deer at close range. This is always an exciting experience, and every time we go there together in a group to count them, one of the animals is hiding somewhere.

#### HUMMING AND BUZZING

The honey you can savour for breakfast comes from our bees living at the Morlokhof farm. With a little luck, may even see the queen when you look into the beehive at the display panel.

### THE BAREISS FALLOW DEER ENCLOSURE:

11 full-grown animals with offspring

### ENCLOSURE AREA:

15.000 m<sup>2</sup>

### QUITE CLEVER!

As they can make good use even of a frugal diet, fallow deer are not choosy when it comes to food and will even eat wild scrubs. So our animals are also perfect landscape conservationists and take good care of our hilly terrain. That is quite a clever arrangement nature has devised, isn't it?

### WHAT DO YOU KNOW ABOUT FISH?

Our fish farmers have come up with a great idea to get you hooked. You can take out your Explorer's Diploma with them, and become a junior expert. You should definitely not miss out on this bait (there is no hook or string attached).

#### WHO IS SWIMMING THERE?

Our fish breeding facility located at the Forellenhof Buhlbach trout farm is the place where you can learn how to identify a rainbow trout, a salmon trout, a golden trout and a char.

# PONY CLUB

## Mount your horse!

Dusty boots, your favourite smurfy sweater and an apple in your pocket: you wonder what this is all about? The Bareiss Pony Club! It seems to be logical who the stars in this club are. But you'll also love Jana Koblitz, our horseriding instructor. If you are a horse freak already, you will get along with each other perfectly, and if you are still to become a horse aficionado, her tips and tricks will help you mount your horse as if it was a child's play. Whether you are a beginner or an advanced rider, you can all learn a lot from her, joining our weekly group programme, making excursions together or assisting in her classes.

During school holidays, the stable doors will open free of charge for participating in the Bareiss Pony Club within the scope of the kids programme twice per week. You can also join us for excursions or for a family hiking tour leading us to the Sattelei Hiking Cabin or to another beautiful destination in the surroundings.

# JOIN THE VILLA KUNTERBUNT TEAM TO EXPLORE THE BLACK FOREST JUNGLE

As we love the feeling of freedom and also enjoy physical exercise, we regularly feel tempted to go outside and breathe some fresh air. When the jungle fever gets hold of us, we feel as if crickets were chirping in our heads ready to fly and off we go on tour together. For us, no way is too long, no river is too wide, no treetop is too high.

Everyone who joins the team of Villa Kunterbunt for a tour, can rest assured of one thing: Our backpack is full of ideas, and our forest is full of secrets. Here you can see just a few examples of our most favourite destinations. To see the current weekly programme, please have a look at our web page.

## BLACK FOREST EXPEDITION

Under the guidance of experienced nature educators and foresters, you can experience from up-close what a difference it may be to spend a day outdoors and what a variety of exciting things you can find in the Black Forest National Park. You will be amazed about all that you can discover if you keep your eyes and ears open as you walk through nature.

12 km

## FULL SPEED

Race down 13 steep curves at a speed of up to 40 kilometres per hour on steel rails, or put on virtual reality goggle to glide through an imaginary ice channel – the all-weather **bobsleigh run at Mehlskopf** is a place to have ultimate fun and thrill.

28 km

## TREASURE HUNT

Geo-caching – have you ever heard of that? And have you also got to know it? We take a GPS device and go treasure hunting at **Baiersbronn**, solve tricky puzzles and tasks, while learning quite a number of new things about the Northern Black Forest.

5 km

## FOREST RUN

There are good reasons to leave a beaten track, i.e., there are 21 of them to be precise. That's the number of stations you will find on the »Holzweg« adventure trail at Baiersbronn. At the 50 meter long ball track, we take the marbles out of our backpacks and send them down the valley.

6 km

## HIGH UP

Afraid of heights? Not us! Together, we set off to conquer a world made of ropes and nets at various levels of difficulty between 3 and 14 meters above the ground at the **Hallwangen high rope course**.

20 km

## BAREFOOT IN THE PARK

How does grass, wood or sand feel under your naked feet? You can try this out at our barefoot park located in the **Forest Park** or at the **Dornstetten Barefoot Park** where we will be wading through cool water and even walk on broken glass. So get out of your shoes!

20 km

# Peekaboo!

Animals in forests and on meadows

## TOAD COLLECTION

Why do toads migrate? You can learn the answer to this question and many other things during a walk with Hermann Rastetter, our forester, who is active in campaigns for these amphibians, and likes to tell you something about them.

**MIDWIFE TOAD:** This small batrachian is the only one of its family who goes ashore to mate and also uses firm ground for spawning. After this, the male takes care of the brood and carries the eggs on his back until wiggling starts in his package. This shows that the tadpoles are about to hatch out and it's time to go back into the water.

## ADVENTURE IN THE WILDERNESS

If you are interested in plants and animals, or just feel incredibly happy when you roam through woodlands, our Black Forest is the perfect place for you. Light, sounds, smells and just about everything changes as soon as you step into this pristine wilderness. If you keep your eyes, ears and nose open, nature will reward you with fascinating little wonders.

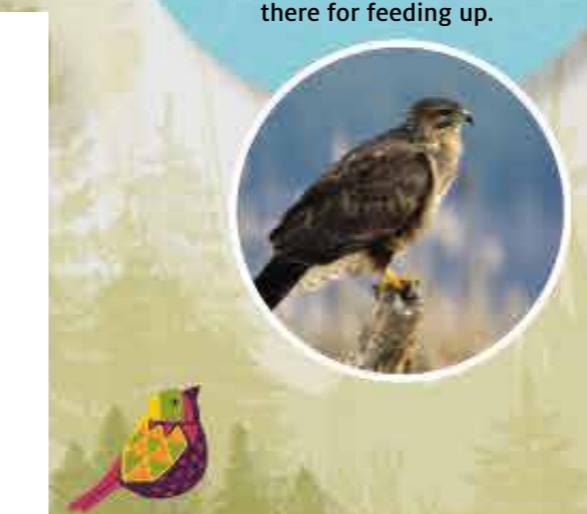

## BIRD PRESERVATION

Some birds build the nests outdoors while others prefer moving into a perfect home. Ask one of our nesting box professionals to show you how to build a perfect house for a bird family. If everyone participates, you will have a whole village of them. And, maybe, you will also take home one of them.

WITH FORESTER  
HERMANN RASTETTER

## FLYING BIRDS

You are fascinated by birds of prey, and admire their acrobatic flight manoeuvres? Do you also know how to identify a buzzard, a red kite and a hawk? If so, you will have a great time with our expert Achim Klumpp, and, with a little luck, he will also take you to a rescue centre if an animal happens to be there for feeding up.

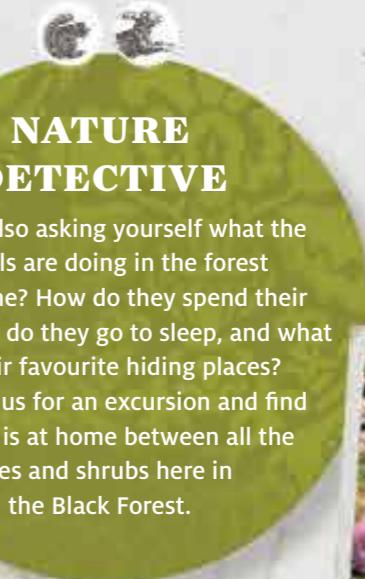

## BUTTER-FLY

Peacock butterfly, swallowtail, brimstone butterfly, small tortoiseshell ... on air a nice day, you can see them all. Grasp a pair of binoculars and join Achim Klumpp for a butterfly watching hike.

**PRAYING MANTIS:** The name is not the only curious feature of this animal; a praying mantis can sit completely still without any motion whatsoever for hours. This creates a perfect camouflage as it waits for its prey. This animal is not really pious but rather appears hypocritical as it is sitting and lurking with folded raptorial legs.

## NATURE DETECTIVE

Are you also asking yourself what the animals are doing in the forest all the time? How do they spend their time, where do they go to sleep, and what are their favourite hiding places? If so, join us for an excursion and find out who is at home between all the trees and shrubs here in the Black Forest.

**WATER PIPIT:** For breeding, water pipits prefer an altitude of up to 3000 m. So, the climate can, at times, make it difficult for this animal to procreate twice per year as many of its fellows from the same species do. The females build their nests alone but do not waste a lot of time on childcare: Their little ones are fledging after two weeks already.

# Thrill Adventure Sports

61 km

19 km

## KAYAK

We've discovered the magic formula to reawaken her, and we'll read to her from Thousand and One Nights together with you in a cosy four-poster bed.

## TIME TO PLAY

At the Villa Kunterbunt we reinvent a new world every day. Of course, we also have a corner for puppet mothers to play with their children.

## SPORTS AND GAMES: FOR US, EVERYONE IS A »MATCH WINNER«

Did you know that cheerful laughter is one of the healthiest sports? This is due to the large number of muscles which are moving when you laugh as positive feelings send waves of happiness hormones through your body. That's why we always have a lot of mischief in mind and love to be carried away with zest to making jokes and romping around. And when we feel like a raving loony, we just start running around until we calm down again.

No, seriously now: There is a word to describe the feeling we are talking about and you may even feel it when you pronounce and stretch the ending of this word: FLOW. Just have a go: Floooowwwwww. This is a state of mind in which you simply succeed in everything you do. The motivation card, which takes you there, reads as follows: You are a great person and strong as a lion.

**P.S.:** EARLY REGISTRATION REQUIRED!

On a hot day, relaxing at the pool is the greatest thing you can do, of course. Make yourself comfortable at your own spot in the sun, let yourself swing gently in a hanging lounge chair or retreat to the shade and read your favourite book in a beach chair. To cool down, you can choose the seawater basin, the open-air freshwater swimming pool or a natural bathing pond or have an ice cream at the pool oasis. Strawberry? Chocolate? Or Vanilla?

And when it gets cooler? Mermaids, seahorses, small crabs and lobsters simply dive into the indoor pools. With a lot of sparkle, we also have our legendary pool parties at this place.

If you want to do more than splashing around, please ask your parents to get you registered for the swimming lessons. Your holidays are a perfect time to do so because you can really dedicate yourself to it and learn quickly. You might even take home your Seahorse or Bronze swimming badge.

# Out into the snow!

When winter comes and thick snowflakes are falling, nature retreats under white and glittery cotton wool for a while. Giant glass cones grow downward from roofs, ice flowers appear on windows and frosty pearl necklaces wind themselves around the trees. This is really gorgeous to look at and also makes for blissful pleasures. Have you ever made a hike walking on snowshoes or built an igloo? A cup of hot chocolate is waiting to warm you up.

If you like to do more sports and would like to let off steam while skiing either downhill or cross-country, you will be

interested in learning about the ski lifts located at Ruhestein on Baiersbronn and at Seibelseckle along the Black Forest High Road. These are our regional hotspots for skiers and snowboarders. These areas are really suitable for everyone and allow you to make downhill runs on levels of difficulty which vary considerably. But you can also take your toboggan by the horns and bomb down the track to have real fun. Take care and avoid losing speed or tipping over which is not exactly as easy as it might look. But, once you get the hang of it, all you need is a free track and: Yippee, off you go!

**FUN THE SLOPES**  
The ski lifts located at Ruhestein in Baiersbronn and at Seibelseckle along the Black Forest High Road are our regional hotspots for skiers and snowboarders.

**TOBOGGANING**  
Take a toboggan by its bent horns and head down the toboggan runs: Make way, we are coming!

**CROSS-COUNTRY SKIING**  
You can find the nearest cross-country trail at Buhlbach which is only 6 km away from the hotel, and the cross-country skiing area situated around Mount Kniebis near Freudenstadt is also close at hand. Booooring? Anything but – there's even a lighted night-time trail.

**BAIERSBRONN INDOOR ICE RINK**  
Go to the indoor ice rink to practice curling, put on your skates and spin your laps or visit the ice disco.

# HIGHLIGHTS IN THE EVENING

When evening comes and the sun slowly gives way to the moon, we make ourselves really comfortable. Diving into the darkness. Snuggling into the cinema chairs. Or speeding up full once more. At the campfire, we let ourselves be fascinated by the dancing flames, at the movie night, we share our heroes' excitement, and, when hiking through the night, we learn to see things through a different eye. If you don't believe it, you will see it.

## B-CLUB

Bass&Beats create good vibes in the B-Club every Thursday, our juke box is a cutting-edge sound system and we are having parties on a regular basis.

## POOL PARTY

Every Tuesday, we release the swimming animals, ride on pool noodles, and raid the buffet like hungry pirates. During school vacations, this will be twice per week, i.e., on Saturdays and Tuesdays.

## CAMPFIRE

We sit together around a campfire lit on the adventure playground, baking bread on sticks and having a barbecue every **Wednesday** in summer, weather permitting.

## MOVIE NIGHT

If you love great cinema and screen heroes, you will enjoy not only the taste of our homemade popcorn, but also the movie buffet we offer on Fridays.

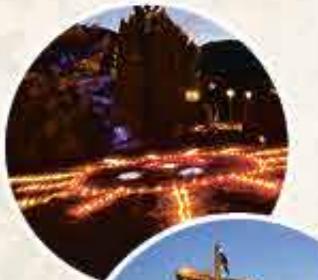

## TORCH-LIT HIKE

Do you know that many wild animals do not get active unless at dusk? You'll meet them during our Monday-night strolls through the dark.

## COME TO THE BIG KITCHEN PARTY AT THE VILLA STERNENSTAUB!

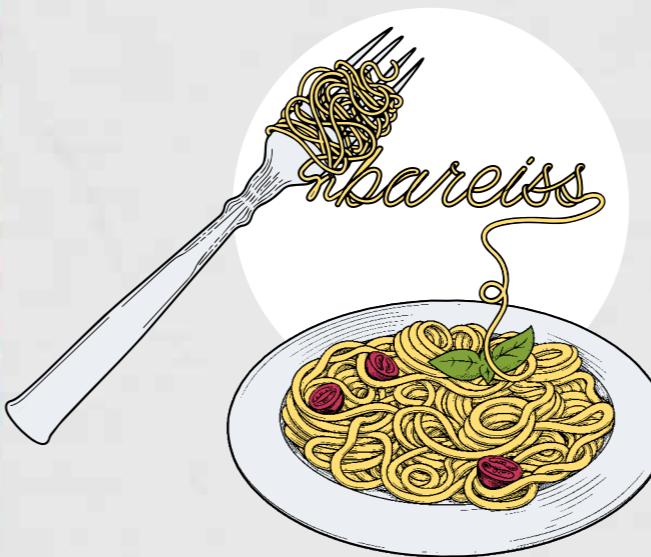

Of course, we did not reinvent relish and enjoyment but rather a culinary holiday you can only find at our place in this form. This is your magic tablecloth which will spoil you with everything you wish during the whole day. And that's not all: there will be an additional children's kitchen with a 7-star restaurant at the Villa Sternenstaub apart from the hotel guest restaurants. At this place, we will not only eat together but we will also be busy with baking and cooking.

So roll up your sleeves, swing the ladles and be ready to be assigned a job just as in a real professional kitchen. Bareiss chefs will open their treasure vaults and set to work together. After all, this is not the land of milk and honey, and no sweet doughnuts are growing for us on the fir trees. We have to take care of this ourselves. And what's more, a fruit you pluck, peel and cut yourself will taste so much better.

# YOUR *culinary* holiday

Whaaat? You'd rather turn around on your pillow once more? That's all right. To have the second breakfast with a children's buffet at the hotel guest restaurants, you have time from 8 to 11.30 a.m. But shhhh, until then you may be dreaming of the best flat-iced cookies, muffins and heart waffles in your life which we also have there, as these are vacations after all. But do not wait too long as otherwise you may not have the right appetite at noon which would be a pity as you risk to miss out on the fine children's buffet at the Villa Sternenstaub. At that place, the table is set from 12 noon onwards, the atmosphere is a little funnier, and cooking differs somewhat from the hotel guest restaurants you go to with your parents. The cool thing is that you do not have to decide this once and for all. Just register one hour before. You also have the same option and opportunity at 6.30 p.m. in the evening. Unless you happen to have other plans, you will hardly be able to avoid the cake buffet available in the afternoon. You have got no sweet tooth? We've heard that very often, and we have seen how quickly this can change ...

Good morning! Are you up yet? When you have rubbed the sleep out of your eyes, be sure to stretch out well because there is a great breakfast waiting for you and you might want to have some room for this in your stomach. So, if you like, you can start right away and come to our early-bird breakfast at the pool beginning at 7 a.m. to have yogurt and fruits, croissants and some sweets to start your day.

**From Carnival to Christmas:  
The kitchen of Villa Sternenstaub  
serves the best for every festival.**

To celebrate a special festival or holiday, we make very elaborate preparations and, of course, things are really busy in the children's kitchen at the Villa Sternenstaub, too. Where has the large mixing bowl gone? Who is hiding the sugar pearls? What's the chocolate doing in the mess inside the kitchen drawer? And why is a sweet bunny ear missing on the plate again? You will hardly be able to imagine what is going on there, but once all the daily work is done and there is a delicious smell all over the building, everybody forgets all this excitement and everything is back to normal.

**CHOCOLATE  
NESTS**

On Easter, we build sweet and edible nests consisting of chocolate and pretzel sticks.

**PUMPKIN  
MUFFINS**

On Halloween, we process the pulp left over from the pumpkins we carved to make juicy and extremely fluffy pumpkin muffins.

**CARNIVAL  
CUISINE**

On Carnival, we bake traditional doughnuts with sugar and cinnamon.

**GINGER-  
BREAD**

Nibble, nibble, gnaw: traditional gingerbread houses are being built during the Christmas season.

**Shakeria Wonderful!**

We've got fruity smoothies and sparkling lemonade, a colourful magic punch and fancy kids cocktails and will also give away our best recipes for your next birthday party. Watermelon? Coconut milk?

Or papaya? What do you put in your shaker? During our **junior bartender courses**, you will learn everything it takes for you to make ice cubes which move to rhythmic sounds, write your own recipes, create sparkling and shiny drinks and decorate them with an artistic garnish.

No alcohol, of course!

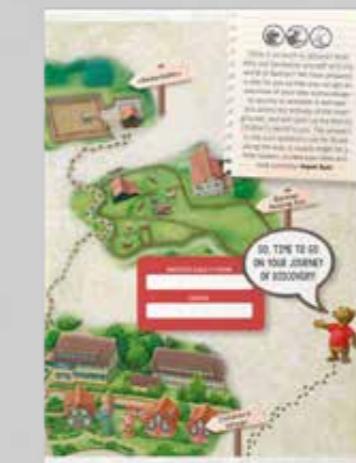

**BECOME A STAR COLLECTOR ...**

... and look forward to receiving your extra surprise every third time you visit us.

**INVITATION  
TO A VOYAGE OF DISCOVERY**

To enable you to conquer our Bareiss as quickly as possible and get to know its most beautiful features, we have created the **BAREISS RALLYE**. If you're up for it, ask the kids programme team to give you the questionnaire.
